

## **Kerri Andrews**

Writer and academic **Kerri Andrews** has recently written "**Wanderers: A History of Women Walking**" that challenges the male-dominated history of walking. Drawing on her own experience of hill walking and through research, she has written a compelling book that includes intriguing stories about women walkers since the early 18th century. She focused on women writers who reflected on what walking meant to them, many of whom have been overlooked or ignored.

Unlike the majority of Talking Walking interviews that are undertaken out and about on foot, the COVID pandemic has meant that this interview had to be recorded over the Internet. The interview opens with Andrew Stuck asking Kerri about her own passion for walking and how it began. 24'33" 11.5MB
